AD 2 AERODROMES

Note: The following sections in this chapter are intentionally left blank: AD-2.4, AD-2.7, AD-2.11, AD-2.16, AD-2.19, AD-2.21, AD-2.23

RPMG AD 2.1 AERODROME LOCATION INDICATOR AND NAME

RPMG - DIPOLOG PRINCIPAL AIRPORT (Class 1)

RPMG AD 2.2 AERODROME GEOGRAPHICAL AND ADMINISTRATIVE DATA

1	**ARP coordinates and site at AD**	083605.4339N 1232030.3831E.
2	**Direction and distance from (city)**	0.5KM NE.
3	**Elevation/Reference temperature**	3.66M AMSL.
4	**Geoid undulation at AD ELEV PSN**	Nil.
5	**MAG VAR/Annual Change**	0.6°W (2014) / 2.6’ increasing.
6	**AD Operator, address, telephone, telefax, telex, AFS**	Civil Aviation Authority of the Philippines Dipolog Airport, Dipolog City 7100 Zamboanga del Norte Tel. No.: (065) 212-2359 AFS: RPMGYYYX
7	**Types of traffic permitted (IFR/VFR)**	VFR.
8	**Remarks**	Nil.

RPMG AD 2.3 OPERATIONAL HOURS

1	**AD Operator**	0000 - 0900.
2	**Customs and immigration**	Nil.
3	**Health and sanitation**	Nil.
4	**AIS Briefing Office**	Nil.
5	**ATS Reporting Office (ARO)**	2300 - 0900. For extension of SER one (1) day PN is required.
6	**MET Briefing Office**	Nil.
7	**ATS**	0000 - 0900.
8	**Fuelling**	Nil.
9	**Handling**	Nil.
10	**Security**	H24.
11	**De-icing**	Nil.
12	**Remarks**	Airport Operations: 2300 - 0900.

RPMG AD 2.5 PASSENGER FACILITIES

1	**Hotels**	In the City.
2	**Restaurants**	Near the AD and in the City.
3	**Transportation**	Near the AD and in the City.
4	**Medical facilities**	Near the AD and in the City.
5	**Bank and Post Office**	Near the AD and in the City.
6	**Tourist Office**	Nil.
7	**Remarks**	Nil.

RPMG AD 2.6 RESCUE AND FIRE FIGHTING SERVICES

1	**AD category for fire fighting**	CAT VII.
2	**Rescue equipment**	Three (3) fire trucks (SIDES VMA105, SIDES DODGE VIRM13 & Oshkosh Striker 4x4).
3	**Capability for removal of disabled aircraft**	Nil.
4	**Remarks**	Nil.

RPMG AD 2.8 APRONS, TAXIWAYS AND CHECK LOCATIONS/POSITIONS DATA

1	**Apron surface and strength**	Surface: CONC. Strength: Nil.
2	**Taxiway width, surface and strength**	Nil.
3	**Altimeter checkpoint location and elevation**	Nil.
4	**VOR checkpoints**	Nil.
5	**INS checkpoints**	Nil.
6	**Remarks**	Nil.

RPMG AD 2.9 SURFACE MOVEMENT GUIDANCE AND CONTROL SYSTEM AND MARKINGS

1	**Use of aircraft stand ID signs, TWY guide lines and visual docking/parking guidance system of aircraft stands**	Taxiway guideline marking.
2	**RWY and TWY markings and LGT**	Nil.
3	**Stop bars**	Nil.
4	**Remarks**	Nil.

RPMG AD 2.10 AERODROME OBSTACLES

In approach/TKOF areas			**In circling area and at AD**		**Remarks**
1			**2**		**3**
RWY/Area affected	**Obstacle type Elevation Markings/LGT**	**Coordinates**	**Obstacle type Elevation Markings/LGT**	**Coordinates**

RPMG AD 2.20 LOCAL TRAFFIC REGULATIONS

1. Parking

1.1 All aircraft must strictly follow the respective aircraft nosewheel stop bars.

1.2 All aircraft must strictly follow the nosewheel lead-in lines at the entrance and exit of north and south taxiways to the ramp to prevent the aircraft main gears from excursion to the taxiway shoulders.

1.3 Assignments of Parking Bays:

a. Bays 1 and 2 are for A320/B737 and smaller category aircraft.

2. Taxiing - limitations

2.1 Arrival

a. While taxiing, flight crew must contact Dipolog Tower (TWR) for parking bay assignment.

b. Aircraft assigned to Bay 1 should only use north taxiway.

c. Aircraft assigned to Bay 2 can use both north and south taxiway.

d. All aircraft may taxi-in with power to respective bay assignment and must be assisted by wing marshals/walkers.

2.2 Departure

a. TWR approval must be obtained prior commencing push-back of any aircraft including taxiing out with power. TWR will only grant approval for taxi-out after confirmation has been received from CAAP designated ramp-in-charge (ground control).

b. Aircraft parked on Bay 2 must exercise extreme caution and strictly follow the taxi-out guide line or use maximum steering angle to prevent the aircraft main gears from excursion to ramp shoulders.

c. Aircraft parked on Bays 1 and 2 may exit both north and south taxiway.

d. All aircraft pushback and tow-out operation shall be assisted by wing marshals/walkers.

RPMG AD 2.22 FLIGHT PROCEDURES

1. Helicopter Operations

1.1 Helicopter operating East side of station shall

1.1.1 Advise Dipolog Tower frequency 123.8MHZ when ready for take-off.

1.1.2 Advise ATC of departure time once airborne.

1.2 Helicopter traffic – limitations:

1.2.1 Except when a clearance is obtained from an air traffic control unit, VFR helicopter flights shall not enter, take-off or land within the Dipolog Aerodrome Traffic Zone:

a. When the ceiling is less than 150M (500FT);
b. When the ground visibility is less than 1.5KM (1 Mile).

1.2.2 Helicopter operating VFR may be allowed outside controlled airspace with flight visibility below 1.5KM (1 Mile) provided that:

a. The helicopter is clear of clouds and the ground or water is in sight at all times.
b. The helicopter shall be maneuvered at a speed that will give adequate opportunity to observe other traffic or any obstruction to avoid collision.

1.3 Procedures for Transiting Helicopters

1.3.1 Helicopters transiting from Northwest to Northeast shall:

a. Request for clearance to cross final approach RWY20. When approved, cross via Canlucani Road (6.5NM) at 300FT AGL or below. Fly towards Dakak. Report when landed.
b. If destination is within Dipolog ATZ, advise entering ATZ. Continue to destination and report on the ground.
c. If destination is outside ATZ, report when landed or 5NM outbound.

1.3.2 Helicopters transiting from East to Northwest shall:

a. Contact Dipolog Tower entering Dipolog ATZ. Request ATC clearance to cross final approach RWY20 approaching Dapitan Gulf. When approved, cross final approach RWY20 via Canlucani Road (6.5NM) at 300FT AGL or below. Report 10NM outbound.

1.3.3 Helicopters transiting from Southwest to Southeast shall:

a. Contact tower for clearance to cross final approach RWY02. When approved, cross via Katipunan Town (6NM) at 300FT AGL or below. Report on the ground if destination is within Dipolog ATZ, or report 5NM outbound.

1.3.4 Helicopters transiting from Southeast to Southwest shall:

a. Contact tower for clearance to cross final approach RWY02. When approved cross via Katipunan Town (6NM) at 300FT AGL or below. Report 10NM outbound.

1.4 Helicopter Arrival Procedures

Note: Helicopter will be considered as a fixed-wing aircraft once instructed to join the traffic circuit.

1.4.1 From the East and Northeast (i.e., Dakak or Dapitan Town): Advise Dipolog Tower when ready for take-off. Pilots shall advise ATC of the Actual Time of Departure once airborne. Proceed towards the Gulf of Dapitan.

a. Landing RWY 02: Request ATC clearance to cross final approach of RWY 20. When approved, cross via Canlucani Road (6.5 NM). Join downwind RWY 02.

b. Landing RWY 20: Request clearance from ATC to make a straight-in approach RWY 20 or proceed as instructed by ATC.

1.4.2 From the southwest:

a. Follow VFR fixed-wing arrival procedures from the southwest.

1.4.3 From the southeast (i.e., Dipolog Town or Piñan Town):

a. Report approaching KATIPUNAN TOWN (6 NM).

b. Landing RWY 02: Request clearance from ATC to make a straight-in approach via KATIPUNAN TOWN or proceed as instructed by ATC.

c. Landing RWY 20: Request clearance from ATC before crossing final approach of RWY 02, when approved cross at or below 300 FT via KATIPUNAN TOWN. Request to join downwind RWY 20 or proceed as instructed by ATC.

1.5. Helicopter Departure Procedures

1.5.1 Helicopter departures will be treated as VFR fixed-wing departures until 5 NM or until helicopter joins a helicopter transit route towards destination.

2. Departure and Arrival Procedures

2.1. General Procedures for VFR flights

2.1.1 The following air traffic procedures shall apply to all VFR flights when entering, leaving or operating within Dipolog ATZ.

a. All departing VFR flights shall maintain a listening watch on Dipolog Tower frequency 123.8 MHZ until 25 NM.

b. All arriving VFR flights shall establish contact and remain on listening watch thereafter with Dipolog Tower frequency 123.8 MHZ approaching 25 NM inbound the station.

c. ATC instructions and traffic information shall be complied with and acknowledged.

d. Any deviation from the procedures herein shall be subject to ATC approval.

2.2 VFR Procedure in RWY 02

2.2.1 Departure

a. North and northwest bound aircraft: Make a straight-out departure towards TAGOLO POINT. Report 5 NM/abeam DAKAK. Continue towards the West side of SELINOG. Report abeam SELINOG and proceed to destination.

b. East, northeast and southeast bound aircraft: After airborne, make a right turn towards BALIANGAO. Report approaching South of SIBUTAD. Report approaching BALIANGAO and proceed to destination.

c. South and southwest bound aircraft: After airborne, make a left turn for a downwind departure. Request to cross final approach RWY 20. Report over KATIPUNAN TOWN. Report South of MANUKAN and proceed to destination.

2.2.2 Arrival

a. From the North and northwest: Report to Dipolog Tower approaching 25 NM. Fly East of ALIGUAY. Report 5 NM to the station and request to join downwind RWY 02 or proceed as instructed by ATC.

b. From the East, northeast and southeast: Report to Dipolog Tower when approaching North of BALIANGAO (entry shall be over water). Continue towards North of SAWANG. Request to cross final approach RWY 20 to join downwind RWY 02 and proceed as instructed by ATC. Report 5 NM.

c. From the South and southwest: Report to Dipolog Tower when over North of MANUKAN (entry shall be over water). Follow the coastline and report North of DOHINUB. Report 5 NM. Request to join final approach RWY 02 or proceed as instructed by ATC.

2.3 VFR Procedure in RWY 20

2.3.1 Departure

a. North and northwest bound aircraft: Make a right turn after airborne, continue climb for a downwind departure and fly towards TAGOLO POINT. Report 5 NM/abeam DAKAK. Continue towards the West side of SELINOG. Report abeam SELINOG and proceed to destination.

b. East, northeast and southeast bound aircraft: Make a right climbing turn for a downwind departure. Request clearance from ATC to cross overhead station. Continue climb towards the South of BALIANGAO. Report approaching South of SIBUTAD. Report approaching South of BALIANGAO and proceed to destination.

c. South and southwest bound aircraft: Make a straight-out departure. Report over KATIPUNAN TOWN. Report South of MANUKAN and proceed to destination.

2.3.2 Arrival

a. From the North and northwest: Report to Dipolog Tower approaching 25 NM. Fly and report East of ALIGUAY. Report 5 NM to the station and request to join right base RWY 20 or proceed as instructed by ATC.

b. From the East, northeast and southeast: Report to Dipolog Tower approaching North of BALIANGAO (entry shall be over water). Continue towards North of SAWANG. Request to make a straight-in approach for RWY 20 and proceed as instructed by ATC. Report abeam DAKAK (5 NM).

c. From the South and southwest: Report to Dipolog Tower when abeam North of MANUKAN (entry shall be over water). Follow the coastline and report North of DOHINUB. Report 5 NM. Request to join downwind RWY 20 or proceed as instructed by ATC.

3. List of Visual Landmarks and Reporting Points

3.1 The following visual reference and reporting points as mentioned in the procedure are identified using local available maps, Google Maps and Google Earth Satellite images.

VISUAL REPORTING POINT	COORDINATES	DISTANCE FROM ARP (NM)	RELATIVE POSITION FROM ARP	DESCRIPTION
ALIGUAY	084444N 1231320E	11.2	NW	Aliguay Island
BALIANGAO	084008N 1233556E	15.8	NE	La Esperanza Resort, along Baliangao Coastline
DAKAK	084143N 1232336E	6.4	N	Dakak Park and Beach Resort
DAPITAN TOWN	083924N 1232518E	5.8	NE	Dapitan Town Oval Plaza
DOHINUB	083154N 1231151E	9.5	SW	Dohinub River Mouth
KATIPUNAN TOWN	083046N 1231705E	6.3	S	Katipunan Town Gymnasium
MANUKAN	083058N 1230539E	15.7	SW	Manukan Town Hall
SAWANG	084148N 1232956E	10.9	NE	Sawang, Sibutad Point
SELINOG	085114N 1232501E	15.7	N	Selinog Island
SIBUTAD	083644N 1232849E	8.3	E	Sibutad Town Plaza
TAGOLO POINT	084335N 1232247E	7.8	N	Tag-ulo Light House
