

## GEN 2.3 CHART SYMBOLS

### 1. Topography

|                            |                                                                                     |
|----------------------------|-------------------------------------------------------------------------------------|
| Contours                   |  |
| Active Volcano             |  |
| Highest elevation on chart | • 17456                                                                             |
| Spot elevation             | • 6397<br>• 8975                                                                    |

### 2. Hydrography

|                       |                                                                                       |
|-----------------------|---------------------------------------------------------------------------------------|
| Shore line (reliable) |  |
| Lakes (perennial)     |  |

3. Culture

3.1 Built-up Areas

|           |                                                                                     |
|-----------|-------------------------------------------------------------------------------------|
| Buildings |  |
|-----------|-------------------------------------------------------------------------------------|

3.2 Highways and Roads

|                |                                                                                       |
|----------------|---------------------------------------------------------------------------------------|
| Dual highway   |    |
| Primary road   |    |
| Secondary road |  |

3.3 Miscellaneous

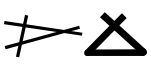

|                                               |                                                                                       |
|-----------------------------------------------|---------------------------------------------------------------------------------------|
| Telegraph or telephone line (when a landmark) |  |
|-----------------------------------------------|---------------------------------------------------------------------------------------|

4. Aerodromes

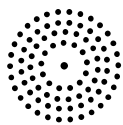

|              |                                                                                       |
|--------------|---------------------------------------------------------------------------------------|
| Civil (land) |  |
|--------------|---------------------------------------------------------------------------------------|

|                                                                                                                                                   |                                                                                     |
|---------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|
| Military (land)                                                                                                                                   |  |
| Note: Where required by the function of the chart, the runway pattern of the aerodrome may be shown in lieu of the aerodrome symbol, for example: |  |

#### 4.1 Aerodrome Symbols for Approach Charts

|                                                                                           |                                                                                       |
|-------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------|
| The aerodrome on which the procedure is based                                             |    |
| Aerodromes affecting the traffic pattern on the aerodrome on which the procedure is based |  |

### 5. Radio Navigation Aids

|                                                                                                                   |                                                                                       |
|-------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------|
| Basic radio navigation aid symbol<br><br>Note: This symbol may be used with or without a box to enclose the data. |  |
| Non-directional radio beacon (NDB)                                                                                |  |
| VHF omnidirectional radio range (VOR)                                                                             |  |

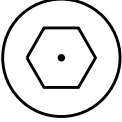

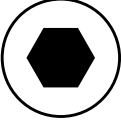

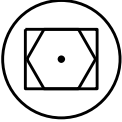

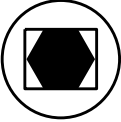

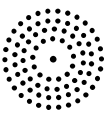

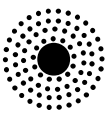

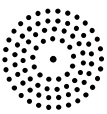

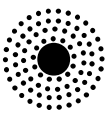

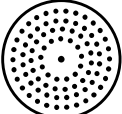

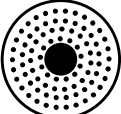

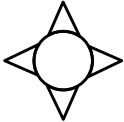

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |                                                                                                       |     |                                                                                       |         |                                                                                       |
