

GEN 3.2 AERONAUTICAL CHARTS

3.2.1 Responsible Service(s)

3.2.1.1 The CAA of the Philippines (CAAP) provides a range of aeronautical charts for use by all types of civil aviation. The Aeronautical Information Service (AIS) Department produces a limited range and quantity of some of the charts which are part of the AIP. Other charts, suitable for pre-flight planning and briefing, are available for reference at the AIS Department. The charts published in the AIP are produced in accordance with the provisions contained in the ICAO documents listed in item 3.2.1.2. Differences to the provisions contained in ICAO Annex 4 - Aeronautical Charts are detailed in subsection GEN 1.7.

AIS Department

Ground Floor Philippine Air Traffic Management Center
CAAP Compound, MIA Road
1300 Pasay City, Metro Manila
Philippines

Phone: (+63) (02) 8246-2179, 8672-7746

Email: ais_operations@caap.gov.ph

AFS: RPLLYOYX

Website: ais.caap.gov.ph

HR of OPS: MON - FRI: 0000 - 0900 (excluding holidays)

3.2.1.2 Applicable ICAO Documents

- Annex 4 - Aeronautical Charts, Eleventh Edition July 2009.
- Document 8168 - Aircraft Operations, Volume II, Seventh Edition 2020.
- Document 8697 - Aeronautical Chart Manual, Third Edition 2016.

3.2.2 Maintenance of Charts

3.2.2.1 The aeronautical charts included in the AIP are regularly kept up to date by amendments to the AIP. Significant amendments or revisions in aeronautical information for other aeronautical charts are also included in the replacement sheets. Revisions of the aeronautical information on all charts are constantly in progress and amended reprints are published as regularly as production resources permit.

3.2.2.2 Incorrect information of operational significance found after publication will be corrected by NOTAM. However, information must not be changed further for at least 28 days after the indicated effective date.

3.2.3 Purchase Arrangements

3.2.3.1 The charts may be obtained from:

1. AIS Department

AIS Department
Ground Floor Philippine Air Traffic Management Center
CAAP Compound, MIA Road,
1300 Pasay City, Metro Manila
Philippines

Phone: (+63) (02) 8246-2179, 8672-7746

Email: ais_operations@caap.gov.ph

AFS: RPLLYOYX

Website: ais.caap.gov.ph

HR of OPS: MON - FRI: 0000 - 0900 (excluding holidays)

2. AIP Management/Charting Management Offices

AIP Management/Charting Management Sections
Ground Floor Philippine Air Traffic Management Center
CAAP Compound, MIA Road
1300 Pasay City, Metro Manila
Philippines
Phone: (+63) (02) 8672-7785, 8672-7757 (Telefax)
Email: ais_aipmanagement@caap.gov.ph
ais_chartingmanagement@caap.gov.ph
HR of OPS: 2300 - 1500

3.2.4 Aeronautical Chart Series Available

3.2.4.1 The following series of aeronautical charts are produced:

- a. Enroute Chart;
- b. Aerodrome/Heliport Chart – ICAO;
- c. Aerodrome Ground Movement Chart – ICAO;
- d. Aircraft Parking/Docking Chart – ICAO;
- e. Aerodrome Obstacle Chart – ICAO Type A (Operating Limitations);
- f. Aerodrome Obstacle Chart – ICAO Type B;
- g. Area Chart – ICAO;
- h. Standard Departure Chart – Instrument (SID) – ICAO;
- i. Standard Arrival Chart – Instrument (STAR) – ICAO;
- j. Tracking System Chart;
- k. ATC Surveillance Minimum Altitude Chart – ICAO;
- l. Instrument Approach Chart – ICAO; and
- m. Traffic Circuit Chart.

3.2.4.2 General description of each series

- a. Enroute Chart. This chart provides flight crews with information to facilitate navigation along ATS routes in compliance with air traffic services procedures.
- b. Aerodrome/Heliport Chart - ICAO. This chart provides flight crews with information which will facilitate the ground movement of aircraft:
 1. from the aircraft stand to the runway; and
 2. from the runway to the aircraft stand;and helicopter movement:
 1. from the helicopter stand to the touchdown and lift-off area, and to the final approach and take-off area;
 2. from the final approach and take-off area to the touchdown and lift-off area, and to the helicopter stand;
 3. along helicopter ground and air taxiways; and
 4. along air transit routes;it shall also provide essential operational information at the aerodrome/heliport.

- c. Aerodrome Ground Movement Chart - ICAO. This supplementary chart provides flight crews with detailed information to facilitate the ground movement of aircraft to and from the aircraft stands and the parking/docking of aircraft.
- d. Aircraft Parking/Docking Chart - ICAO. This supplementary chart provides flight crews with detailed information to facilitate the ground movement of aircraft between the taxiways and the aircraft stands and the parking/docking of aircraft.
- e. Aerodrome Obstacle Chart - ICAO Type A (Operating Limitations). This chart, in combination with the Aerodrome Obstacle Chart - ICAO Type C or with the relevant information published in the AIP, provides the data necessary to enable an operator to comply with the operating limitations of Philippine Civil Aviation Regulations (PCAR) Part 8 - Operations, Chapters 8.7 and 8.8.
- f. Aerodrome Obstacle Chart - ICAO Type B. This chart provides information to satisfy the following functions:
 - 1. the determination of minimum safe altitudes/heights including those for circling procedures;
 - 2. the determination of procedures for use in the event of an emergency during take-off or landing;
 - 3. the application of obstacle clearing and marking criteria; and
 - 4. the provision of source material for aeronautical charts.
- g. Area Chart - ICAO. This chart provides the flight crew with information to facilitate the following phases of instrument flight:
 - 1. the transition between the enroute phase and the approach to an aerodrome;
 - 2. the transition between take-off/missed approach and the enroute phase of flight; and
 - 3. flights through areas of complex ATS routes or airspace structure.
- h. Standard Departure Chart - Instrument (SID) - ICAO. This chart provides the flight crew with information to enable them to comply with the designated standard departure route - instrument from take-off phase to the enroute phase.
- i. Standard Arrival Chart - Instrument (STAR) - ICAO. This chart provides the flight crew with information to enable them to comply with the designated standard arrival route - instrument from the enroute phase to the approach phase.
- j. Tracking System Chart. This chart provides ATS route information which are not listed under ENR 3. Track routes are either confined within a TMA or they extend toward adjacent TMAs.
- k. ATC Surveillance Minimum Altitude Chart - ICAO. This supplementary chart provides information that will enable flight crews to monitor and cross-check altitudes assigned while under radar control.
- l. Instrument Approach Chart - ICAO. This chart provides flight crews with information which will enable them to perform an approved instrument approach procedure to the runway of intended landing including the missed approach procedure and where applicable, associated holding patterns.
- m. Traffic Circuit Chart. This chart depicts the legs that define the circuit and the turn direction for joining and leaving the traffic circuit of an aerodrome.

3.2.5 List of Aeronautical Charts Available

Title of Series	Scale	Name and/or Number	Price	Date
