

GEN 3.6 SEARCH AND RESCUE

3.6.1 Responsible service(s)

1. The civil aeronautical search and rescue service is provided by the Civil Aviation Authority of the Philippines (CAAP) under Philippine Aeronautical Rescue Coordination Center (PARCC). PARCC is managed by the Aeronautical Information and Communication Department (AICD) of the Air Traffic Service (ATS).

The search and rescue service is provided in cooperation with Department of National Defense (DND), Philippine Coast Guard (PCG) and Local Government Units (LGU).

2. All correspondence to PARCC shall be made through:

Philippine Aeronautical Rescue Coordination Center (PARCC)
2/F, Air Traffic Management Center
Civil Aviation Authority of the Philippines
Old MIA Road, Pasay City
Philippines 1300
Phone: (632) 8851-7137, 8672-7704, +63917-6502302 (Mobile)
Fax: (632) 8672-7705
Email: parcc@caap.gov.ph, caaphil.rcc@gmail.com
AFS: RPLLYCYX

3. The service is provided in accordance with the provisions contained in the following documents:

Civil Air Regulations - Air Navigation Service (CAR-ANS) Part 12 - Governing Search and Rescue, 2nd Edition, October 2023.

Philippine Civil Air Regulations (PCAR) Part 13 - Accident and Incident Reporting and Investigation, 2024 Edition.

ICAO DOC 7030 - Regional Supplementary Procedures for Alerting, and Search and Rescue Services applicable to MID/ASIA.

ICAO DOC 9731 - International Aeronautical and Maritime Search and Rescue (IAMSAR) Manual Volumes I, II and III.

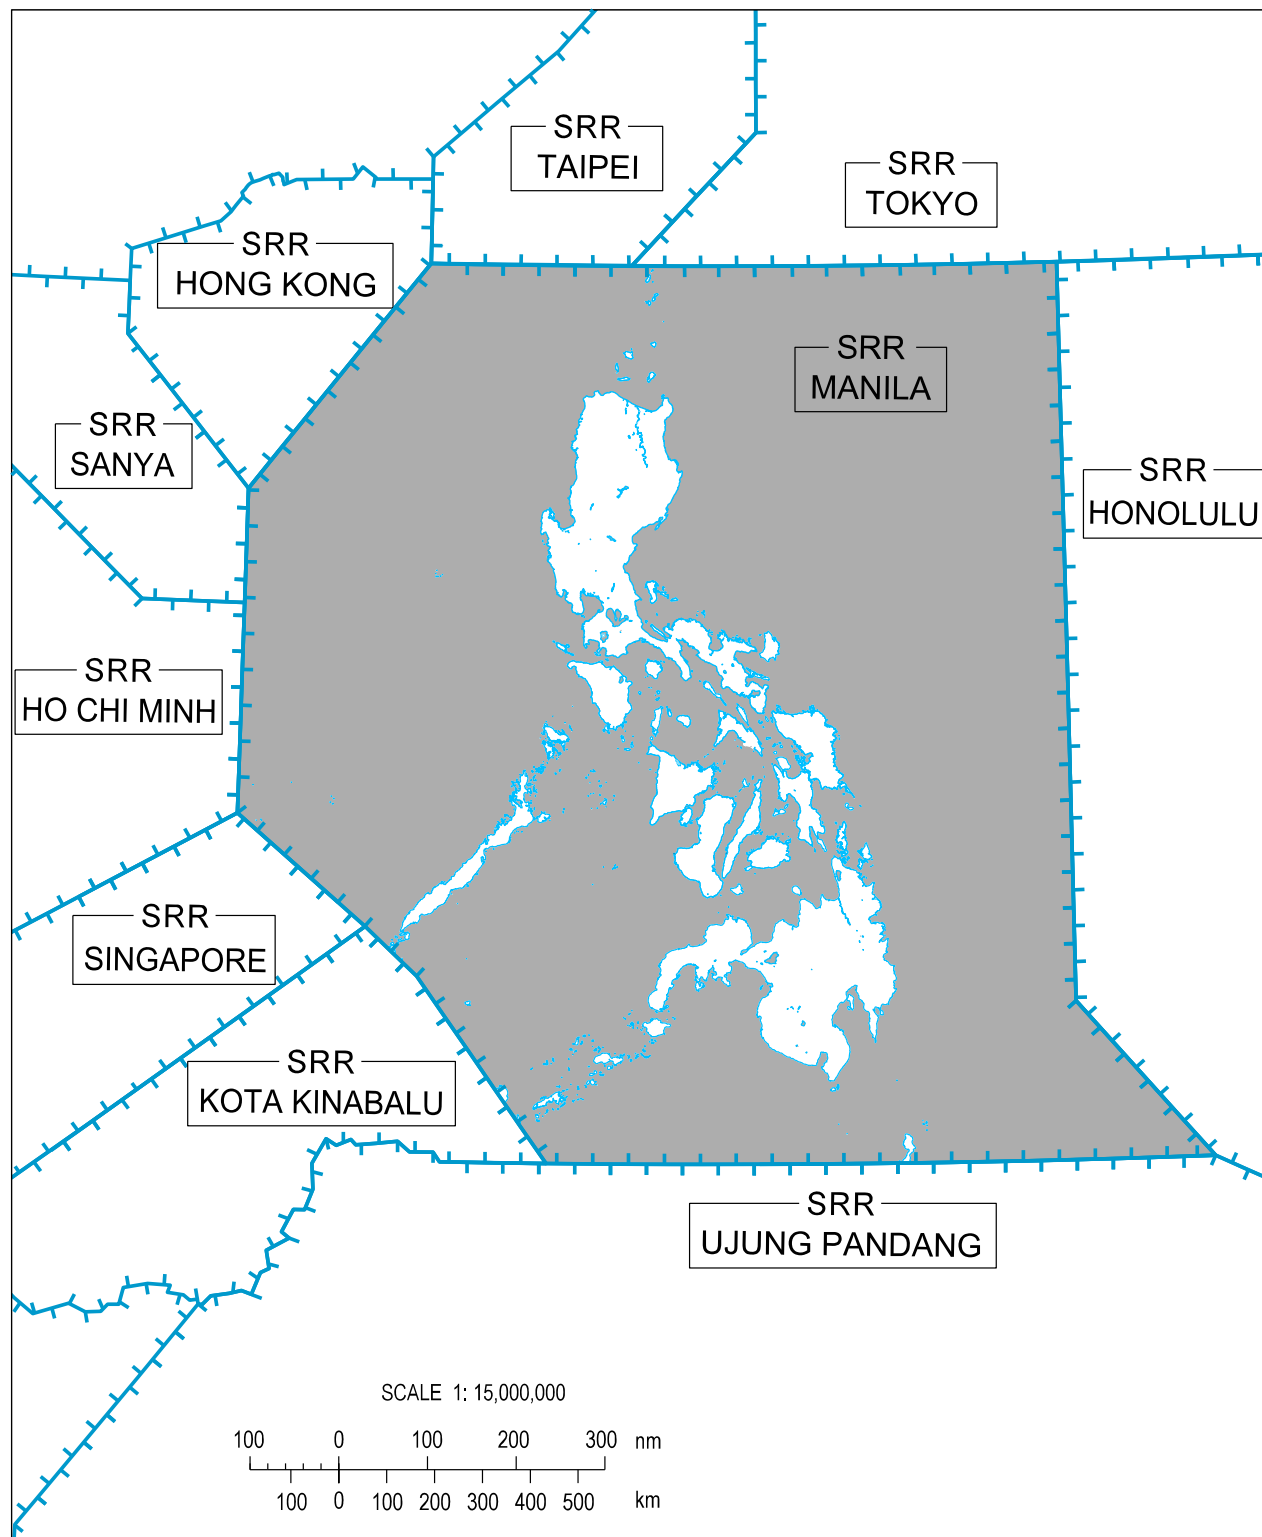

ICAO DOC 10150 - Manual on the Functional Specifications for the Location of an Aircraft in Distress Repository (LADR).

National Disaster Risk Reduction and Management Plan 2011-2028.

3.6.2 Area of responsibility

1. Manila Search and Rescue Region (SRR) coincides with Manila FIR.
2. The search and rescue service is responsible for aeronautical search and rescue operations within the Manila SRR, except:
 - a. Military aircraft accident/incident wherein respective military procedures apply;
 - b. Accident/Incident within 5 NM radius from an airport, where respective Airport Emergency Plan applies.

MANILA AND ADJACENT SEARCH AND RESCUE REGIONS

3.6.3 Types of services

- Details of the search and rescue units are contained below:

SEARCH AND RESCUE UNITS			
Name	Location	Facilities	Remarks
1	2	3	4
Philippine Navy (PN)	Manila Manila SRR	Fixed wing aircraft Helicopters Vessels	-
PCG	Manila Manila SRR	SAR Vessels Maritime vessels and crafts	Coast Guard Action Center - coordinating centers for all maritime search and all rescue operations 12 Coast Guard Districts - Maritime Rescue Coordinating Council 59 Coast Guard Stations - Maritime Rescue Sub-Centers
PCG Aviation Group	Manila	Fixed wing aircraft Helicopters	-
Philippine Air Force (PAF)	Manila	Helicopters	Search and Rescue Squadrons
Philippine Army (PA)	Manila SRR	Communications Ground Forces	-
Philippine National Police (PNP)	Manila SRR	Communications Fixed wing aircraft Helicopters Ground forces	-
National Disaster Risk Reduction and Management Council (NDRRMC)	Manila SRR	Disaster Response	Composed of different Philippine government agencies
Department of Interior and Local Government (DILG)	Manila SRR	Local Government Units	

- Search and rescue units of DND (PAF, PN, PA and NDRRMC), PCG, PNP and LGUs are available for search and rescue missions.
- Non-government organizations with search and rescue capabilities may render assistance during search and rescue missions. Prior coordination with PARCC is required.
- PARCC is the designated SAR Point of Contact (SPOC) in the Cosmicheskaya Sistyema Poiska Avariynich Sudov - Search and Rescue Satellite-Aided Tracking (COSPAS-SARSAT) system. COSPAS-SARSAT alerts are received through the Hong Kong Mission Control Center (HKMCC) through AMHS and RCCnet. Emergency Locator Transmitter (ELT) and aviation related Personal Locator Beacon (PLB) alerts are handled by PARCC while Emergency Position-Indicating Radio Beacon (EPIRB) alerts are transferred to the PCG.
- Registration forms of 406 MHZ beacons are available at CAAP website (caap.gov.ph) or through this section. Filled up registration forms are to be submitted to PARCC through fax or email to the contact details stated under AIP Philippines GEN 3.6.1 Item 2.
- Inadvertent activation of 406 MHZ beacon must be relayed to PARCC immediately for cancellation of alert messages.
- ELT Testing Form is also available at CAAP website or through this section. Filled up form must be submitted to PARCC through fax or email prior testing.

3.6.4 SAR agreements

SAR agreements have been concluded between CAAP and SAR authorities of Indonesia, Japan, Malaysia, Singapore, USA and Vietnam. These agreements provide mutual cooperation during SAR operations within each other's Search and Rescue Regions, entry of SAR aircraft, vessel and personnel, with prior permission, for the purpose of the conduct of SAR operations or assistance, and for direct communications between SAR authorities.

1. Request from other States for entry of aircraft, vessel, equipment or personnel to conduct SAR operations for aircraft accident should be addressed to the Director General, CAAP and transmitted to PARCC. Entry of vessel needs prior coordination with the PN and PCG through PARCC.
2. Instructions as to the control which will be exercised on entry of such SAR aircraft and/or personnel will be given by PARCC in accordance with a standing plan for the conduct of SAR within Manila SRR.

3.6.5 Conditions of availability

1. SAR facilities and services within the Philippines is available and free of charge to neighboring States upon request to the Director General, CAAP, at all times and when not engaged with prior operational commitment.
2. All SAR facilities are specialized in techniques and functions.

3.6.6 Procedures and signals used

Procedures and signals used are in conformity with CAR-ANS Part 12 Governing Search and Rescue.

1. Procedures and signals used by aircraft
 - 1.1. Procedures and signals for pilot-in-command observing an accident or intercepting a distress call or message are also in accordance with CAR-ANS Part 12 - Governing Search and Rescue.
2. Communications
 - 2.1. Transmission and reception of distress and urgency messages are handled in accordance with CAR-ANS Part 2 - Aeronautical Telecommunications Governing Communication Procedures with PAN Status, Issue 3 - Part 2.8.3 - Distress and Urgency Radiotelephony Communication Procedures.
 - 2.2. Information regarding position, call sign, hours of operations and frequencies of the Philippine aeronautical stations are published in the AIP Philippines part ENR 2 and AD 2.
 - 2.3. ATS units and PARCC guard the international distress frequency 121.5 MHZ while the PCG and its coast stations monitor the maritime distress frequencies.
3. SAR signals
 - 3.1. The SAR signals used are those prescribed in CAR-ANS Part 12 - Governing Search and Rescue, Item 12.5.8 - Search and Rescue Signals.
 - 3.2. Ground-air visual signal codes are illustrated in AIP Philippines GEN 3.6-18 and must comply with the following instructions:
 - 3.2.1 Symbols shall be at least 2.5 M or 8 FT long and shall be made as conspicuous as possible.
 - 3.2.2 Symbols may be formed by any means such as: strips of fabric, parachute materials, pieces of wood, stones, or such like material; marking the surface by tramping, or staining with oil.
 - 3.2.3 Attention to the markings may be attracted by other means such as radio, flares, smoke and/or reflected light.

Ground/Air Visual Signal Code For Use By Survivors		
No.	Message	Code symbol
1	Require assistance	V
2	Require medical assistance	X
3	No or negative	N
4	Yes or affirmative	Y
5	Proceeding in this direction	

Ground/Air Visual Signal Code For Use By Rescue Units		
No	Message	Code Symbol
1	Operation completed	L L L
2	We have found all personnel	
3	We have found only some personnel	
4	We are not able to continue. Returning to base.	XX
5	Have divided into 2 groups. Each proceeding in direction indicated.	
6	Information received that aircraft is in this direction.	
7	Nothing found. Will continue to search.	NN
