

## **ENR 1.13 UNLAWFUL INTERFERENCE**

### **1. General**

- 1.1 The following procedures are intended for use by aircraft when unlawful interference occurs.

### **2. Procedures**

- 2.1 Pilots of aircraft, unless considerations aboard dictate otherwise, shall endeavor to set the transponder to Mode A, Code 7500, continue the flight as planned and cleared at least until notification to an ATS unit is possible.
- 2.2 When an aircraft must depart from its assigned track or its assigned cruising level without being able to inform the ATS unit, the pilot-in-command shall whenever possible:
- a. Attempt to broadcast warnings on the emergency frequency or any appropriate frequency, unless considerations aboard dictate otherwise. Other equipment such as transponders, data links, etc. should also be used when circumstances permit.
  - b. Proceed in accordance with applicable special procedures for in-flight contingencies where such has been established and promulgated in Doc 7030.
- 2.3 ATS units shall endeavor to recognize any indication of such unlawful interference and shall attend promptly to requests made by the pilot. Information pertinent to the safe conduct of the flight will continue to be transmitted and necessary action shall be taken to expedite the conduct of all phases of the flight.
