
ENR 5.3 OTHER ACTIVITIES OF A DANGEROUS NATURE AND OTHER POTENTIAL HAZARDS

5.3.1 Other activities of a dangerous nature

1 Release of Weather Balloons

1.1 Meteorological Balloon for upper-air observation will be released from the Philippine Atmospheric, Geophysical and Astronomical Services Administration (PAGASA) Synoptic Station in Laguindingan Airport (08 36 19.16N 124 27 24.56E).

1.2 Meteorological Balloons will be released daily at 2330 and 1130.

Rate of Ascent: 1000 FT/MIN (average)

Max Height of Balloon: 27000 FT

Color of Balloon: White

Diameter: 1.5 M

The balloon is attached with radiosonde equipment.

Weight of attached equipment: 235 grams

Payload: 585 grams

Size of radiosonde equipment: 6 inches x 5 inches

The balloon will burst 1 hour and 30 minutes after release and radiosonde equipment will descend within 27 NM radius.

5.3.2 Other potential hazards - Nil

INTENTIONALLY
