## RPLV AD 2.20 LOCAL TRAFFIC REGULATIONS

### 1. Airport Regulations

- 1.1 Closed to civil aircraft except on emergency or prior request shall be made to the Commanding General, PA. Request for landing clearance for civil registered aircraft should be addressed to:
- The Commanding General  
Philippine Army  
Fort Andres Bonifacio  
Makati City 1201
- Attention: AC of S Operations, G3
- 1.2 Closed to aircraft without a functioning two-way radio.
- 1.3 Aerodrome traffic are controlled. No aircraft shall penetrate the ATZ with an indicated airspeed exceeding 200 knots without ATC authorization.
- 1.4 All aircraft are restricted from flying low over the Integrated Firing Ranges, the Artillery Impact Areas and the Air-to-Ground Gunnery Ranges unless authorized/cleared by ATC.
- 1.5 Flight operations during HN needs prior coordination with the Army Aviation (Bagwis) Battalion. Due to unavailability of runway lights, an aircraft may land and take-off provided pilots are trained in night flying and equipped with night vision devices.
- 1.6 Due to the unavailability of spacious ramp to accommodate large aircraft, fixed wing aircraft operations will be temporarily suspended whenever a C-130 aircraft or aircraft with the same category is parked or loading/unloading troops and cargoes at both ends of runway 05/23.
- 1.7 The threshold of TWY05 is the designated Helicopter TLOF Area for helicopters intending to land at the Aviation Helipad. Upon touchdown, helicopter pilots will be instructed by Control Tower to taxi/air taxi from threshold of RWY05 on the way to the designated helipads. Helicopters are prohibited to lift off from TWY A or TWY B.
- 1.8 All engine run-ups must be conducted at the taxi holding positions except for C-130 aircraft or aircraft with the same category.
- 1.9 All civil aircraft must exercise extreme caution when flying near the Danger Area RP-D28 (Magsaysay).

### 2. Taxiing to and from stands

- 2.1 An aircraft may taxi-out with power from the parking bays. Taxi-in with power to the parking bays is not allowed.
- 2.2 A C-130 aircraft or aircraft with the same category must continue to taxi after touchdown towards the end of the runway before making a 180-degree turn. All 180-degree turns must be made only at the concrete pavement of the runway.

### 3. Parking

- 3.1 Parking Bays 1 to 4 are exclusively for light aircraft only. Aprons are exclusively for light and medium aircraft only.
- 3.2 Helicopters may park only on one taxiway. Helicopters may also park in the grassy area located between TWY A and TWY B.

### 4. Taxiing - limitations

- 4.1 Taxiing in the ramp and taxiways is limited only to light aircraft operations.
- 4.2 Pilots shall not taxi/air taxi aircraft at any time without communication with and clearance from the

Control Tower.

- 4.3 If wind condition is calm, high speed taxi must be made at RWY23.

**5. School and training flights, technical test flight and use of runways**

- 5.1 School and training flights from civilian flight training institutions must only be made after permission has been granted by the Commanding General, Philippine Army.
- 5.2 Technical test flights must not be flown over the Integrated Firing Ranges and ammunition/POL dumps.
- 5.3 Any aircraft that is unable to enter the taxiways to load and unload troops and cargoes may use the active runway for such purpose in coordination with the Control Tower only for a limited period of time.
- 5.4 Aircraft with hot armaments except machine guns must arm/de-arm its weapons station only at threshold of RWY05.

**6. Helicopter traffic - limitation**

- 6.1 All civilian helicopters are restricted from passing within 1NM from the periphery of Fort Ramon Magsaysay.
- 6.2 All helicopters shall be maneuvered at a speed that will give adequate opportunity to observe other traffic or any obstruction to avoid midair collision.
- 6.3 All helicopters flying within the aerodrome must contact the Control Tower before crossing the final approach and midfield of Runway 05/23.

## RPLV AD 2.22 FLIGHT PROCEDURES

### 1. General

- 1.1 Unless otherwise instructed by the Control Tower for reasons of safety or for expeditious flow of air traffic, departing and arriving aircraft shall conform to the published traffic circuit.
- 1.2 Air traffic control instructions and traffic information issued by the Control Tower shall be acknowledged and complied with.
- 1.3 All aircraft passing within the Fort Magsaysay Military Flight Training Areas are advised to switch to Fort Magsaysay Tower frequency (118.450MHZ) for the traffic monitoring.

### 2. Procedures for Departing Aircraft

- 2.1 Departing aircraft shall contact the Control Tower for taxi and take-off clearance or instructions before taxiing out of the ramp.
- 2.2 Departing aircraft shall maintain a continuous listening watch on the Control Tower frequency until cleared to change the frequency or until outside the ATZ.

### 3. Procedures for Arriving Aircraft

- 3.1 Arriving aircraft flying on VFR shall contact the Control Tower and report over the designated visual reporting points for landing instruction and traffic information.
- 3.2 Designated Visual Reporting Points:

| Reporting Points |                    | Distance |
|------------------|--------------------|----------|
| North            |                    |          |
|                  | Palayan            | 6.5NM    |
|                  | Camp Tinio (abeam) | 3.0NM    |
| Northwest        |                    |          |
|                  | Cabanatuan         | 7.2NM    |
| West             |                    |          |
|                  | Sta. Rosa (abeam)  | 7.8NM    |
| South            |                    |          |
|                  | Gapan (abeam)      | 7.7NM    |
|                  | Peñaranda          | 5.4NM    |

- 3.3 Arriving aircraft flying on IFR shall contact the Control Tower at least 10NM or upon leaving Approach Control.

### 4. Fort Magsaysay Military Flight Training Areas

- 4.1 Mike One (M1) - Located north of Fort Magsaysay Army Aerodrome, bordered by an imaginary line starting on Talavera town, then north to Munoz City; eastward to Rizal town, southward to Laur town and back to Talavera town. Vertical limits is from surface up to 3 000 feet.
- 4.2 Mike Two (M2) - Located adjacent to the southern border of M1 starting from Laur town southward towards the peak of Hill 370 (Taklang Damulag Hill), then westward to Sta. Rosa town, northward to Talavera town and back to Laur town. Vertical limits is from surface up to 3 000 feet.
- 4.3 Mike Three (M3) - Located adjacent to the southern border of M2 starting from Sta Rosa town going southward to Gapan City and further south to San Miguel town, then eastward to Tartaro town, northward towards the peak of Hill 370 (Taklang Damulag Hill) and back to Sta Rosa town. Vertical limits is from the surface up to 3 000 feet.

**5. Designated Parachute Drop Zones**

**5.1 Paratrooper's Drop Zones:**

| Drop Zone           | Dimension (M) |
|---------------------|---------------|
| DZ Bullet / DZ Rowe | 914 x 549     |
| DZ Cynthia          | 800 x 300     |
| DZ Hayufox          | 800 x 550     |
| DZ Talahib          | 859 x 350     |

**5.2 Skydiver's (Military Freefall) Drop Zones:**

| Drop Zone                  | Dimension (M) |
|----------------------------|---------------|
| DZ Air Ops                 | 100 x 100     |
| DZ Aviation                | 50 x 75       |
| DZ Division Parade Grounds | 700 x 150     |
| DZ Old Hospital Building   | 10 x 16       |
| DZ Socom Parade Grounds    | 200 x 100     |

**RPLV AD 2.23 ADDITIONAL INFORMATION**

- 1. Bird concentration in the vicinity of the aerodrome**
- 1.1 Bird strikes sometimes occur during take-off roll and while at the traffic circuit. Vigilance is necessary between October to April annually as this is the bird migratory season. Some transient and resident birds flock near the Cababaza Creek, near the Pahingahan and Cordero Dams and in the ricefields within the fort.
- 1.2 Dispersal activities to eliminate birds through the use of live ammunition are prohibited since the Fort Magsaysay Military Reservation is a wildlife sanctuary.

**RPLV AD 2.24 CHARTS RELATED TO AN AERODROME**
